

Welcome address

Dear colleague

We are proud to announce the 10th European Postgraduate Course in Neonatal and Pediatric Intensive Care. These Courses joining neonatal and pediatric experts have been very successful so far. They are characterized by a highly professional but also familiar and interactive atmosphere.

The 10th Course will focus on neonatal and pediatric physiology of the critically ill patient. In addition, overview lectures will present basic as well as advanced clinical management of diverse diseases relevant to intensive care medicine. Finally, round tables will present cases and allow for discussion of controversial issues. Again, many experts from around the world are willing to join the Course. Interaction between the audience and speakers will be guaranteed by round table sessions, and by joint coffee break and lunch time.

Looking forward to welcome you next March in Berne

Ben Wagner
Course Chairman
